4th International Conference on Smart Computing and Informatics

SCI - 2020

VASAVI COLLEGE OF ENGINEERING, Hyderabad, India.
09-10 October 2020

SPECIAL SESSION

ON

Advances in Computational Intelligence and its Applications (ACIA)

Theme of the Session:

The main aim of this special session is to concentrate on incremental growth of Intelligent Computing in day-to-day life. This special Session attempts to create a platform to foster new ideas and technical insights in the design and analysis of emerging intelligent computing systems and their scientific, engineering, and commercial applications. In particular, we would like to focus on sustaining facile solutions using supervised machine learning, artificial neural networks, genetic algorithms, fuzzy systems, natural language processing, smart systems, and collaborative intelligence. The general purpose of this special session in Springer SCI 2020 conference is to bring together researchers, academicians and sector employees from different fields and disciplines and provide them an independent platform to exchange information on their researches, ideas and findings.

Scope and Interest:

- Artificial Neural Networks, Fuzzy Systems, Genetic Algorithms
- Machine learning and Data Systems, Intelligent Computing System Architectures
- Intelligent System, Natural language processing, Collaborative Intelligence
- Soft Computing Approach, Network approaches to Big Data Science
- Evolutionary computation of Machine Learning in the fields of Agriculture, Medical, Weather applications

Publication:
All accepted and registered papers of this special session will be published in Smart Innovation Systems and Technologies Series, Springer. Indexed in SCOPUS

Important Dates:
Last date for Paper Submission: 15-09-2020   Acceptance Notification: 01-10-2020

Submission Procedure:
Papers shall strictly adhere to the Springer guidelines.
Authors can submit their papers to 1. anishanaidu.pushpala@gmail.com   2. kishoar23@gmail.com
